[doi:[10.1063/1.3488679](https://doi.org/10.1063/1.3488679)]

This article was originally published online and in print with an incomplete sentence in the abstract and a typographical error in the acknowledgment section. In the abstract, the first sentence should have read, "The Faraday rotation for light transmission through a bilayered structure composed of an electro-optic semiconductor film and a slab with high values of magneto-optic and magnetoelectric interactions is theoretically investigated." instead of "The Faraday rotation for light transmission through a bilayered structure composed of an electro-optic semiconductor film and a slab with high values of magneto-optic and magnetoelectric interactions;" in the acknowledgment section, "NWO" appeared incorrectly as "NOW." AIP apologizes for these errors. All online versions of the article have been corrected.
